COMPANY OVERVIEW

AURORA HORIZONS GLOBAL TRADING LLC

About Us

we are an innovative and leading company in the Oil, Gas, and Petrochemical industry, offering comprehensive and customized solutions to our clients, built upon 15 years of valuable experience in engineering and sales of industrial equipment. Our mission extends beyond mere equipment supply; we act as your technical and strategic partner, leveraging deep local market knowledge and a global network of suppliers to accompany you through all project stages, from design to execution and logistics. Our commitment to excellence, unparalleled quality, and innovation empowers us to transform the most complex industrial challenges into opportunities for growth and success. We are proud to share our knowledge and expertise with regional companies, particularly in Oman, assisting them in achieving their objectives.

WHAT WE DO

Specialized Procurement

We excel in the sourcing and supply of high-quality, specialized equipment, components, and raw materials for Oil, Gas, and Petrochemical facilities.

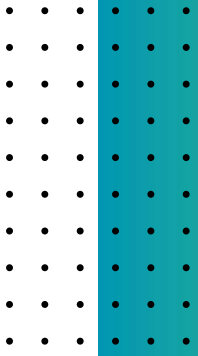

Through our extensive global network of reputable manufacturers and suppliers, we guarantee access to critical resources that meet stringent industry standards. We are your technical partner, ensuring end-to-end solutions tailored to your project's needs

Technical Consultancy & Engineering

Leveraging deep industry expertise, we provide comprehensive engineering services, equipment supply, and technical consulting for precision instrument projects, covering design, manufacturing, and cost optimization.

We go beyond being a mere supplier or trader; we are your technical partner, ensuring end-to-end solutions tailored to your project's needs. Our team brings 15 years of proven expertise in engineering and sales of Oil & Gas facilities, enabling us to deliver innovative, field-tested solutions with unmatched local market knowledge. We aim to share this extensive knowledge and experience with Omani companies, collaborating closely to deliver tailored solutions

WHAT WE DO

Global Logistics

Our comprehensive logistics services manage intricate international transportation, warehousing, and distribution of Oil, Gas, and Petrochemical equipment and commodities. We ensure efficient, safe, and timely delivery of goods worldwide, adhering to the highest industry regulations and client-specific requirements.

Energy Commodities

We are a reliable partner in the trade and supply of essential energy commodities, including Bitumen, Liquefied Petroleum Gas (LPG), and Sulfur. Our focus is on ensuring consistent availability and competitive pricing for these vital resources, supporting the energy needs of the Middle East and Oman.

OUR PROCESS

Mission

Our mission is to deliver a strong, responsive, and dependable supply chain to the oil, gas, and petrochemical industry—covering global sourcing of instrumentation and industrial valves as well as trading and logistics of Bitumen, LPG, and Sulfur across the region. At our core, we are a professional supply and trading company: managing RFQs, vendor negotiations, technical documentation, inspection, packing, and delivery to site. Complementing this core, our engineering team provides equipment selection, technical matching, and design review to ensure that every item supplied fits the process conditions, project documents, and international standards. Guided by QHSE principles and a focus on reducing supply risk, preventing delays, and optimizing lifecycle cost, we position ourselves as a trusted partner for end-users, EPCs, and operators.

Vision

Our vision is to be recognized as the preferred and most reliable supply partner in the Middle East for industrial valves, instrumentation, and energy commodities. Leveraging a strong global sourcing network, we strive to guarantee availability, competitive pricing, and on-time delivery for oil, gas, and petrochemical projects and operations. By complementing our core supply capability with practical engineering support and application-focused design services, we help clients reduce selection risk and ensure full compliance with API, ASME, ASTM, and project-specific requirements.

OUR PRODUCT DEPARTMENT 1

Field Instrumentation

We are a leading supplier of high-precision field instruments, providing world-class solutions from globally renowned brands. Our commitment to excellence ensures the highest quality, competitive pricing, and the fastest lead times in the industry. Our core expertise includes:

- **Flow Measurement:** Advanced technologies for accurate fluid dynamics.
- **Level Measurement:** Reliable solutions for liquid and solid monitoring.
- **Pressure Measurement:** Precision sensors for demanding industrial environments.
- **Temperature Measurement:** High-performance instruments for thermal control.

At Aurora Horizons, we bridge the gap between global innovation and your operational needs.

OUR PRODUCT DEPARTMENT 1

Industrial Valves

Aurora Horizons Global Trading LLC provides a comprehensive range of high-performance industrial valves, engineered to ensure safety, reliability, and precision in fluid handling. We partner with world-leading manufacturers to deliver robust solutions for the most demanding oil, gas, and petrochemical applications. Our valve portfolio includes:

- **Isolation / On-Off Valves:** High-integrity Gate, Globe, Ball, and Butterfly valves designed for reliable shut-off and long-term durability.
- **Control & Throttling Valves:** Advanced pneumatic and electric actuated valves for precise modulation and process control.
- **Safety & Pressure Management:** Critical Safety Relief Valves (SRVs) and high-efficiency Desuperheaters for system protection and thermal management.
- **Non-Return / Check Valves:** Robust solutions to prevent backflow and protect pumps and piping infrastructure.

OUR PRODUCT

DEPARTMENT 2

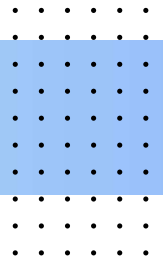

Energy & Bulk Commodities (Bitumen, Sulfur, LPG)

Aurora Horizons Global Trading LLC is a trusted supplier and exporter of high-grade energy products and industrial commodities. Leveraging a robust logistics network and strategic sourcing, we ensure the consistent delivery of premium raw materials to global markets. Our energy and commodity portfolio features:

- **Bitumen:** Premium grade penetration and viscosity bitumen (e.g., 60/70, 80/100) supplied in new steel drums or bulk, ideal for world-class infrastructure and road construction.
- **Sulphur:** High-purity bright yellow sulphur pellets, essential for fertilizer production, chemical industries, and sulfuric acid manufacturing.
- **Liquefied Petroleum Gas (LPG):** Reliable supply of high-calorific LPG (Propane/Butane mix) for industrial, commercial, and energy applications.

BUSINESS OVERVIEW

Core Values

Driven by Quality, Integrity, and Local Commitment, we provide Oman's industries with certified instruments, valves, and energy products. We ensure every solution meets the highest safety standards to support the Sultanate's industrial growth.

Partners

We bridge Global Innovation and Local Needs by partnering with top-tier European and international manufacturers. These alliances give our Omani clients direct access to cutting-edge technology and world-class engineering

Distribution Channel

Our Integrated Supply Chain ensures the seamless delivery of industrial hardware and bulk energy products across Oman. Leveraging strategic routes, we guarantee timely, end-to-end logistics to minimize project downtime
